Freehman Callege Class g 29

n Sept. 28, 1928 there was admitted to newton Country Junior Callege the pirst hman Class of twenty-two members. From the very first this famous Class was for its explended spirit and enthusiasm and also for its brilliant possibilities th athletic and Literary work.

nany were the talents found in this class. Judging from the good showing the record made by our class so far, newton launty Junior Callege need

no pears par the juture material par her callege.

we met with much resistance as all classes do, but holting not we marched with a bold pearless determination to scan the juture and quickly overevery obstacle. We stood for that which makes a greater Junior Callege a more useful and expicient life.

n September 2, 1929 entered the zirst Sazehamore Class of Newton Country Junior College. iligence which the Class displayed in their exports to Obtain a higher Conception of life emplified by the fact that nearly two-thirds per cent of those who started out on this ade returned to their alma mater in the zall of '29, although our ranks had been thinned amenhat, but our lass in numbers was generously replaced by a gain in spirit and ligation that we were no longer Freshmen, but Saphomares.

r a Callege student the Saphamore year is the Critical year; and although some zell by the de, there were still a goodly number left to carry out the lostly purpose of the class. The has contributed to the uphwilding of the spiritual, moral, and intellectual standards of the today in every possible way. The members are imbued with a spirit of determination e a Class they shall stand for all that goes to make Callege life every day, in every

letter and hetter.

NEWTON COUNTY A. H. S. AND JUNIOR COLLEGE

School opened with a good attendance last Tuesday morning, and after having spent the Christmas holidays with home folks, everybody has settled down to do some real work for this term.

An Operetta "Gipsy Rover" under the direction of Mrs. Bob Rivers, was given at the public school auditorium Friday evening, for the benefit of the athletic club. A large crowd attended. Everyone pronouncing it as being a huge success.

On last Friday morning the heart of every member of the student body and faculty was made sad on hearing of the death of Mrs. J. D. Pugh, the mother of our beloved Superintendent.

A basketball game-Ellisville vs. Decatur is scheduled for Friday afternoon, 1:15 o'clock, on the Decatur Court. Come! Just see our boys show their "spunk"

A Conference of the Newton County Hi-Y Boys is to be held here Friday afternoon and night. We are expecting a big crowd and lots of fun as well as some interesting reports from the boys, concerning their Hi-Y work.

Miss Shirley Carson of Conehatta, visited her sister, Thelma, here Sunday afternoon.

Lynn Young, a member of the Freshmen College class is away from school for a few days, having been called away on business.

Work has been begun to clear away the rubbish left by burning of old dormitory some months ago, and plans for the "campus beautiful" are soon to be put into effect.

Mr. and Mrs. D. L. Townsend, teachers in the public school, have moved again, and now reside in the girl's dormitory. The girls have profited by the Boy's loss.

Mrs. C. A. Kling and daughter, Mrs. Fair, of Union, visited the former's niece, Janet Parker, on the campus Sunday afternoon,

Everybody is glad to have Bart Harrington back in school, after a week's absence.

Messrs A. D. ,Thurman and Percy Bassett, Melton Rhodes, Hubby Crenshaw and Olen Nicholson all of Decatur spent the holidays with their homefolks.

Our football team and fans are hilghly elated over the defeat of Clarke College last Saturday 12-7 by the Aggie and College team, at Newton. When they have such enthusiastic fans as Jim Thames and Andy May to back 'em up and pep 'em up, in the lexicon of the English language, for them, there is no such word as "fail." The last game of the season will be played vs. Car-

The field was a sea of mud and neither team was able to get away with much broken field running. A. Daly, the Tupelo quarter, was the outstanding star of the game, as he was in a recent game on the local field. Black did some nice work in the backfield. Bill Richardson, Tupelo end was also very effective. Four local boys are members of the Tupelo team. Red Daly, Tupelo tackle, did some effective work in the line. A pass from A. Daly to Harwood which netted 55 yards, was the outstanding play of the afternoon.

For the Newton county team Her-rington in the backfield and Gordon in the line did nice work. Both teams punted continually, the Tu-pelo boys getting the best of the exchanges.

The Board of Supervisors Neshoba County, at its last regular meeting, put on a half mill levy for the purpose of assisting in supporting the Junior College at Decatur, which means becoming a part of the Junior College district, which is now composed of the counties of Winston, Neshoba and Newton.

Some time ago a number of schools throughout the state which are doing Junior College work were selected as schools whose work will be accepted, and which would be recognized by the state department of education. The quality of the work that has been done at Decatur, the physical equipment of the plant, and the geographical location, resulted in it being selected as one of the recognized junior colleges.

There is a strong movement on foot throughout the state for the support of Junior colleges. This county, by cooperating to the extent which the Board of Supervisors saw fit to co-operate, will now be allowed to send students to the Junior College at Decatur without paying tuition, and enjoy the same privileges as the students whose home is in Newton county now enjoy. There are at present 25 students of this counenrolled in the school there; end since this action has been taken by Neshoba county there will likely be a great many more who will attend the institution in the future. Other counties in this section will likely join this Junior college district, and with the proper support from the state it will stand a splendid chance of becomign one of the leading schools in the state.

prepares boys and girls for col-College work as revealed by scientific investigations and as expressed by writers on this subject reveals two major objectives.

Dr. L. V. Koos, in his notable investigation of the junior college movement in 1924 found the first major function to be "offering two years of work acceptable to colleges and universities." The other major purpose of the junior college refers to "preparation for occupations the final training for which would be given during college years." He states that "if occupations for which the final training can be completed during what are commonly accepted as high school years are classified as trades, and, if those for which such training can be completed only with four or more years of work beyond the high school are classified as professions, what is advocated is training for semi-professions.

The late Dean of Faculties and Dean of the School of Education of the University of California, Dr. Lange, who has been termed the "father" of the junior college movement in America, has expressed his beliefs concerning the functions of the junior college during a period from 1916 to 1920 in at least four published articles. In the most recent article of this series he has expressed in the following excerpts the keynote of his understanding of the relative value of the fuctions of the junior college.

"I am more than skeptical about the educational success of any junior college with only non-vocational departments."

"Probably the greatest and certainly the most original contribution to be made by the junior college is the crea-"Gracious," said the doction of means of training for the voca-tor, "how did you get tions, occupying the middle ground be-these awful bruises on your shins? Are tween those of the artisan type and the you a hockey player?" professions."

In making recommendations regarding curriculum offerings for junior college it is recognized that the curriculant needs should vary somewhat in different localities. The ideal junior college should offer impartial service to every person within the zone who wishes profit by any type of education essertial to realizing the objectives adopted Any junior college is imperfect to the degree that it fails to do this. Like wise to the extent that imperfection in a junior college's courses discriminate against the aludable educational ambitions of any qualified citizen of the zone-it is undemocratic and anti-social

From an analysis of the pre-profes sional courses offered by our senior colleges it is obvious that to provide acceptable instruction in all would be very expensive if not altogether inpossible. But upon the basis of definite surveys certain schools might specialize in one or more of the pre-professional fields.
